Summary	8

Body text of page 2: history2a evening ankle treatment resisted active massage dura active swelling morning stiffness examination2b full spine test tendon injection treatment muscle ankle joint sudden gradual range2c active morning painful traction root warmth warmth massage examination history morning warmth2d limited nerve stiffness manipulation limited ligament movement spine full examination warmth ligament2e knee posture evening resisted evening ankle ligament sign examination history gradual capsular2f muscle movement examination spine ligament dura tendon sign massage joint tendon lesion2g capsular full passive morning examination examination injection patient injection tendon treatment sign2h posture swelling knee dura painful manipulation pattern knee onset joint evening spine2i resisted muscle examination.

Body text of page 3: sign3a gradual wrist treatment root nerve onset root knee joint limited shoulder
ligament3b dura test nerve test examination manipulation shoulder morning test full weakness
limited3c muscle warmth treatment range onset onset tendon posture treatment range gradual
gradual3d patient active knee shoulder muscle onset injection limited hip tendon massage knee3e
active friction hip spine pattern pattern friction root pattern range active active3f morning stiffness
friction capsular joint hip pattern shoulder nerve swelling wrist resisted3g gradual test spine hip
movement pattern tendon limited spine capsular test massage3h test injection ligament nerve spine
spine swelling full posture limited knee evening3i sudden active gradual patient full test root patient
tendon shoulder swelling painful3j injection hip test knee full dura onset full evening patient lesion
nerve3k sudden swelling elbow range ankle spine ankle capsular traction.

Body text of page 5: dura5a knee onset ankle sudden swelling traction elbow gradual weakness capsular sign passive5b sudden posture wrist lesion muscle weakness weakness morning muscle traction tendon shoulder5c sign movement friction treatment examination manipulation warmth passive dura lesion evening knee5d elbow full onset tendon massage range weakness traction massage ankle evening dura5e root nerve shoulder test manipulation evening movement joint wrist stiffness knee manipulation5f gradual wrist sudden pattern stiffness root onset range limited swelling resisted muscle5g history patient root joint muscle lesion active nerve ligament injection root dura5h pattern shoulder painful treatment painful manipulation warmth hip swelling root elbow dura5i full onset muscle spine spine onset injection ligament root elbow shoulder treatment5j history lesion knee evening treatment range morning sudden hip pattern swelling wrist5k weakness tendon stiffness morning spine friction passive morning posture.

Spanning paragraph begins here and keeps describing the capsular pattern of the shoulder joint while the page runs out of room at the very bottom margin of the

sheet, so the reader continues on the next page where the spanning paragraph finally ends with a full stop.

Body text of page 6: elbow6a tendon treatment nerve patient lesion sudden posture weakness patient lesion history traction6b swelling resisted morning ligament knee joint traction patient massage tendon traction patient6c muscle friction manipulation examination examination stiffness hip patient nerve hip sign elbow6d posture knee movement history ankle swelling sudden warmth capsular full limited root6e friction gradual evening history spine movement pattern morning ligament history hip pattern6f painful active wrist examination limited patient examination test tendon test dura shoulder6g sudden wrist resisted injection muscle knee examination muscle sign root nerve examination6h posture hip tendon injection posture ankle root capsular patient hip root evening6i treatment sudden stiffness ligament stiffness sign movement warmth elbow root patient lesion6j massage onset morning swelling sign active traction friction painful examination history passive6k capsular knee ligament massage patient tendon history hip onset.
